## Pentago

### The Short Version

---

Pentago only collects one piece of information: A unique identifier used by Apple's Push Notification Service to alert you of match status updates. This identifier is anonymous, and cannot identify you. The multiplayer service of Pentago is backed by iCloud, your use of which is governed by the [iCloud Terms & Conditions](#) and [iCloud Privacy Policy](#). I have no access to data stored on iCloud. Your privacy is kept in accordance with iCloud's strict privacy standards, and no other user will have access to your information.

#### **INFORMATION COLLECTION AND USE**

The App itself collects an anonymous identifier that is used to alert you of match updates. The App also uses iCloud, and as such any information collected by iCloud is governed by the [iCloud Privacy Policy](#).

The security of your Personal Information is important to me, but remember that no method of electronic storage is 100% secure. While the anonymous identifier I collect cannot be identified with your Personal Information, this does not guarantee your Personal Information is absolutely secure.
